

KEY PROJECTS

Location	Brussels
Client	World Customs Organisation
Project Details	<p>“World Customs Organisation Task Force for Supply Chain Security and Trade Facilitation” invited MUSC to participate in the development of supply chain security standards post 9/11. MUSC looked specifically at the security surrounding enhancing security of container transport without hindering free trade. MUSC developed several models for the security improvements for review by the Director of the Task Force and its members.</p> <p>Through this modelling MUSC contributed to the “Framework of standards to secure and facilitate global trade”.</p>
Location	US and Far East
Client	Maersk Logistics and Department of Homeland Security (US)
Project Details	<p>Operation Safe Commerce; For this US Government project, MUSC audited entire supply chains from the Far East to the USA, providing recommendations for improvements to security. MUSC also provided cost-benefit analysis for each of the improvements.</p>
Location	Nigeria
Client	Nigerian Government
Project Details	<p>Development of national maritime security strategy, management of security assessments and plans for all Nigerian port facilities, procurement of maritime security systems and integration of new and existing radar systems.</p>
Location	British Virgin Islands
Client	Foreign and Commonwealth Office
Project Details	<p>MUSC provided UK Transport Security (TRANSEC) certified and Maritime and Coastguard Agency (MCA) Standards approved training for maritime security officers of the British Virgin Islands.</p>
Location	Jamaica, Belize
Client	Organisation of American States
Project Details	<p>Survey of national customs, coastguard and other maritime security organisations. Development of training programmes for port security, cargo container searching and security and counter-smuggling support (particularly counter-narcotics trafficking advisory services).</p>

Location

Client European Space Agency (ESA)

Project Details Security assessments of ESA establishments prior to an upgrade to advice for strategic planning.

Location Belgium, Antwerp

Client Antwerp Ports

Project Details Security assessments of over 150 port facilities in the world's fourth largest port. MUSC conducted security assessments, and developed an integrated command and control tool for emergency response.

Location Spain

Client Spanish Port Authority

Project Details MUSC developed the specifications for the procurements of cargo scanners for the Spanish Port Authority.

Location

Client OOCL, Excel and Maersk Logistics

Project Details Work for these logistics companies included supply chain security training, which covered how to perform checks to maintain the secure transit of containers across the globe. MUSC also conducted a market study for SC L3 into cargo container scanners.
